**Please make checks payable to
Maggie's Miracle Makers.**

MMM is a 501(c) (3) organization.

Cystic Fibrosis is a genetic disease that cripples the respiratory and digestive systems of more than 30,000 children and young adults in the U.S. People with CF must take many medications daily, including: enzymes to aid in digestion, antibiotics (oral and/or IV) to prevent lung infections, aerosols to open airways and supplemental tube feeding to sustain growth. Many with CF receive over several hours of respiratory therapy every day to dislodge mucus in their lungs which could host infectious bacteria. By joining Maggie's Miracle Makers at "Kickoff for a Cure", we can continue to support precious lives like Maggie's.

Bear-wear attire! **Limited space available!**
